

# TAKE THE WORRY OUT OF PREPARING FOR CMMC: vCSO SERVICES

A dedicated virtual CSO providing the structure and support you need to meet the controls and requirements of CMMC and NIST 800-171.

## Why Choose a vCSO?

A **budget-friendly** way to get your organization ready for CMMC with a team of dedicated experts.

**Educational approach** to prepare your team for an official CMMC assessment.

## About Us

**Summit Business Technologies** is an IT services and consulting firm with a focus on cybersecurity solutions to prevent, detect, and remediate cybersecurity threats. Our compliance experts help businesses prepare for CMMC and NIST 800-171.

## Our Services Include: Preparation

We conduct a **Gap Analysis** to assess your current state in relation to the requirements, helping establish a clear baseline, and finishing with a **Readiness Assessment** to ensure you are ready for a C3PAO.

Help with **obtaining** your SSP, POAM, and SPRS score, which are needed for contracts.

## Consulting

A dedicated consultant who works closely with your team at a pace that fits your needs.

We team up with your IT and security staff to remediate key issues quickly.

## Ongoing Guidance

Support during the official CMMC assessment and **beyond**.

Regular advice and guidance on **CMMC requirement updates and Annual Readiness Assessment refreshes**.
